Features of the HAZ-MAT/DECONTAMINABLE (HMD) Sked

- ◆ Two-inch polypropylene straps with loops sewn into the ends for easy attachment to die cut slots around edges.
- ◆ Two-inch double adjustable side release plastic buckles.
- ◆ Same shape as the original Sked:
 - ◆ Easy to use
 - ◆ Cut in hand holds
 - ◆ Easily decontaminated
 - ◆ Easy to load and unload patients without lifting
 - ◆ Drags easily over virtually any surface
- ◆ Available assembled and rolled 1-5 per roll for easy storage in vehicle compartments ready to use.
- ◆ Available on pallets of up to 200 units per pallet.
- ◆ Pallets can be stacked 3 high allowing storage of 600 units in a space of 3 ft x 8 ft x 7 ft high.
- ◆ Straps stored in weatherproof boxes of poly bags with one set per bag stored on or adjacent to stretchers.
- ◆ Pallets can be handled with forklift with 5 foot or longer forks.
- ◆ Two pallets at a time can be sling loaded below a helicopter.
- ◆ One or more pallets can be hauled to the scene in light trucks.
- ◆ Assembly of straps is done by two people, one on each side of the pallet in 1-2 minutes.
- ◆ Ropes can be attached to drag HMD Skeds into "Hot Zone" and out with a patient inside for quick evacuation.
- ◆ HMD Skeds will fit on decon-conveyors for easy decontaminating and handling of patients and litter.
- ◆ HMD Skeds do not absorb chemicals.
- ◆ HMD Sked is the most cost effective HAZ-MAT litters on the market.
- ◆ HMD Sked is the easiest HAZ-MAT litter to use anywhere.
